Diagnosis, treatment, and prevention of major cardiovascular, musculoskeletal and connective tissue diseases : in 3 vol. : manual for 5th year students of medical university of level IV of accreditation / O. M. Bilovol, P. G. Kravchun, G. Yu. Tytova [et al.] ; ed. by O. M. Bilovol, P. G. Kravchun, G. Yu. Tytova. – Kharkiv : V. N. Karazin Kharkiv National University, 2017. – Vol. 1. – 228 p.

ISBN 978-966-285-358-2

This book is compiled in accordance to the credit-transfer system. The manual formulates specific goals to be achieved by the students providing performance targets and mastering some practical skills. For each Unit a detailed master plan for educational aims, algorithms (protocols) of examination, diagnosis, treatment and prevention of diseases, according to the standards of evidence-based medicine are provided.

The manual contains clinical tasks, compiled in the form of multiple choice questions. Their purpose is to assess the level of knowledge and consolidate their knowledge. The manual was prepared in accordance with ICD-10 and according to the curriculum for 5th year students of medical university level IV of accreditation.
